Sixty-Eighth Annual Reunion

THE COMMONS

**CLASS OF 1901
GOLDEN ANNIVERSARY**

**CLASS OF 1926
SILVER ANNIVERSARY**

The tentative program for the day includes Baccalaureate at 10:30 a.m.; the Alumni Reunion Dinner at 12:30; and Alumni group meetings in the afternoon.

The campus in the spring can be a beautiful sight — here is your chance to see it again; to watch the solemn, moving, baccalaureate service; to see your old school mates, former teachers, friends you haven't seen for a long time.

Each spring the College pays special tribute to its 50-year and 25-year classes, but the Spring Reunion annually welcomes back members of all classes. Make a date with your friends to meet at the Commons on Sunday, May 27.

Any graduate who returns for the reunion on or after the 50th year of graduation is presented with a gold medal. This award is made only once to an individual but an alumnus returning after 60 years or more will be presented with a special 60-year medal; a college seal set in an oblong gold pendant.

Military Commitments Cut Registration Total

Winter quarter registration at the college was down a little from the fall quarter according to figures released by the Registrar's Office.

Official registration for the beginning of the winter quarter was 2,488; including 1036 men and 1452 women. This compared to the total for last fall of approximately 2,683.

By the end of the first week of the new quarter more than 50 men had cancelled their winter registration because of military commitments. The Dean of Men's office estimated that at least 20 or more men students did not even register for the winter quarter because of service considerations.

Branch Summer School Set for Missouri Valley

The 1951 branch summer school will be held at Missouri Valley from June 11 to August 17. Dr. William Dreier, instructor in the Teachers College education department and specialist in rural education, will direct the branch school.

An instructional staff of eight, to be announced later, will offer courses for credit towards the four year (B.A.) degree curriculum and the two-year (elementary) diploma. Teaching certificates also can be renewed at the branch school.

The first branch summer schools were held in 1917 at Sheldon and Atlantic. Last year's school was at Denison.

Conservation Study Camp Will Be Offered Again

A summer of college right next to nature will be possible this summer for Iowa elementary teachers at the camp for conservation study. Sponsored jointly by the state conservation commission and Iowa State Teachers College, the camp will help acquaint elementary teachers with conservation practices.

Held last year for the first time, it attracted 50 persons.

This summer's camp will again be held at Springbrook Park, near Guthrie Center. Two three-week sessions will begin June 17 and July 8 offering five quarter-hour credits at either session.

Springbrook Park is a former CCC camp site. It has nine modern cabins for group camping and varied natural surroundings for the field trips and nature studies of the campers.

Dr. G. W. Mouser of the Teachers College science department will be in charge of the sessions. Other Teachers College faculty members who will teach at the camp include Dr. Dorothy Matala and Dr. E. L. Will, full time; and Miss Alison Aitchison, Dr. John Bardach, and Dr. M. L. Grant, part time.

President Maucker

Dear Alumni:

This is the season when we attempt to predict our financial needs for the next two years and request necessary support from the state Legislature. This year's picture is, of course, increased in complexity by our involvement as a nation in a world-wide conflict and the decision of the Congress to increase rapidly the strength of our military forces.

We are assuming at the college that as a result of the national defense program there will be a sizeable but temporary drop in our enrollment during the next two years and that we may expect greatly increased enrollments again three or four years hence.

Thus we recognize our obligation to reduce our expenditures (which means primarily reducing staff since most

of our budget is made up of salaries) during the next biennium. We also recognize our obligation, however, to keep intact a strong staff so we will be well prepared to offer educational opportunities to the men returning from military service and to the increased numbers of students who are expected to be graduated from our high schools as the World War II bulge in the birthrate begins to make itself felt in the middle 1950's. Hence we are planning modest staff reductions for next year.

Paradoxically, we have estimated that it will require almost ten per cent *more* state funds than we were allocated this year (\$2,300,000 as compared to our present appropriation of \$2,109,000) just to keep the program going on the reduced enrollment basis and without any expansion into new programs or any salary and wage increases. Sharp decreases in income from the federal government for education of G. I.'s account for this fact.

In view of the general increase in the cost of living during the last six months, we feel that some upward adjustment in salaries and wages should be made. In addition, studies have revealed that there are several specific instances in which our salary and wage scales

place us in a very unfavorable position to compete with other colleges and with the local labor market in attracting qualified personnel to the college staff. We are, therefore, asking for funds to make certain special adjustments in these areas.

Finally, we are requesting \$37,500 per annum in support of a graduate program if the State Board of Education approves introduction of graduate work at I. S. T. C.

Sincerely yours,

J. W. Maucker, President

The State Board of Education has just announced acceptance of the College's request to offer work toward a Master's Degree in education. This approval is subject to two conditions: (1) That the money be appropriated for such a program (estimated \$75,000 for the next biennium), (2) That the Board approve of the curriculum offerings for the advanced degree requirements.

FACULTY ON RECORD FAVORING GRADUATE PROGRAM

Establishing a program of graduate study at Iowa State Teachers College was the subject of two faculty meetings early this year. The faculty went on record with a recommendation to the State Board of Education that authorization be given to offer graduate study beginning in the summer of 1952.

In the "Strayer Report" last October (see *December Alumnus*), a recommendation was made that Teachers College be given permission to grant a Master's degree in education. This report, which carried no authority to act, was based on a survey conducted last summer and fall of Iowa's three institutions of higher learning.

Following their resolution to the state Board of Education, the ISTC faculty set up commit-

tees to study details for a graduate program as it might be carried out at this college.

No action has been taken to date on the "Strayer Report" recommendation, and President Maucker pointed out to the faculty meeting that the problem involves more than just getting permission to set up such a program—additional funds, expanded library facilities, some staff changes and much course planning are a few of the details to be worked out.

In its statement to the State Board, the faculty wrote: "The Faculty of the Iowa State Teachers College recommends to the State Board of Education that authorization be given the College to offer graduate work leading to the Master's degree in education designed specifically for school personnel, beginning with the summer session of 1952".

Spring Reunion Planned for Baccalaureate Sunday

- At right is a picture of the 50-year Gold Medal presented to alumni at the first Spring Reunion they attend on or after the anniversary of their 50-th year of graduation.

All alumni, and especially those of the class years 1901 and 1926, should mark May 27 on their calendars. That Sunday is the day of the Annual Spring Reunion.

Last year the Reunion was held on the same day as Commencement; this year the Reunion will share the day with the Baccalaureate services.

The class of 1901 will be eligible this year for recognition with 50-year medals. Any of the class members from that year who are present at the reunion will receive medals. Sixty-year-medals will, of course, be presented to any alumni who attend this reunion having passed their sixty year mark of graduation and who have not received such a medal previously.

Last year the President of the college presented a total of 27 medals to alumni here to celebrate their 50th anniversary of graduation.

A special medal was presented to Joel E. McCarty, of Columbus, Ohio, who appeared to receive recognition more than seventy years since his graduation.

Alumni may send their reservations to the Alumni Office at any time. Tentative plans call for registration in the morning, the Reunion Dinner, and informal group meetings in the afternoon.

Alumni Association President J. Howard Orth B.A. '26 is expected to preside at the Dinner.

It must be stressed that this spring gathering is not exclusively for the classes of 1901 and 1926 as golden and silver anniversary classes respectively. *All alumni* are cordially invited to attend the reunion, to re-acquaint themselves with the campus and to meet their many old friends here.

Chicago Area Meeting Set For April 14

Plans for the nineteenth annual reunion of Chicago Area Alumni have been announced by that group's secretary, Gladys E. Smith (B.A. '42). The executive committee has reserved the Piccadilly Restaurant, 410 Michigan Ave., for 6:30 the evening of April 14. Alumni in the Chicago area will remember this is the site of last year's well-attended meeting.

President J. W. Maucker will be a special guest at the meeting and will speak briefly on the activities at Teachers College. A movie produced on campus for Television broadcast will also be shown. If possible, some other members of the Teachers College staff will attend also.

Announcements will be sent out to alumni living in the Chicago area some time before the reunion date. If anyone is inadvertently missed he may make his reservations by sending the price of dinner (includes tips) of \$3.00 to Gladys E. Smith, 44 Detroit Street, Hammond, Indiana.

Other officers elected at last year's meeting are: President George S. Johnson, 1666 Orchard Street, Des Plaines, Illinois; and Clarence Hach, Vice-President, 810 Madison, Evanston, Illinois.

The executive committee has announced that all alumni and friends of Teachers College are welcome; and that any Iowa residents planning to be in Chicago at that time are urged to make reservations to attend.

MILWAUKEE-MADISON AREA ALUMNI PLAN REUNION

Alumni in and around Wisconsin will be attending the reunion in the Milwaukee-Madison area, tentatively set for April 21, according to Group Chairman Helen L. Dunlap (B.A. '24).

Miss Dunlap, with the Group Secretary Mary Jo Read, has made arrangements for the alumni to meet at the Medford Hotel, Milwaukee, for an evening dinner meeting.

Alumni within a reasonable distance of Milwaukee will receive more information in the mail later this spring. Any graduates or friends of Teachers College who have not previously received the notices of the Milwaukee-Madison alumni meetings may be placed on the mailing list by simply notifying the Alumni Office.

Last year, meeting in Madison, the group was entertained by slides of the campus and a talk by Mr. A. C. Fuller, Director-Emeritus of the Alumni Bureau.

According to present plans, this year's entertainment will include a short movie from the college.

Any alumni who do not receive invitations by mid-April may contact the Alumni Office, I. S. T. C., or write directly to Miss Helen L. Dunlap, Shorewood Public Schools, Shorewood, Wisconsin. All graduates, former students, and friends of Teachers College are cordially invited, says Miss Dunlap, and may bring their families and friends.

Conflict

... between Dr. Sloper (Merle Picht) and his daughter Catherine (Mary Boyd) is caught in this scene from "The Heiress". The fall play, directed by Miss Hazel Strayer, starred Mary Boyd who received last year's Theta Alpha Phi Alumni Award (see story below).

"Backstage Story" of a Scholarship

"Outstanding ability in Dramatics" will bring scholarship to some upperclassman this year at Commencement. Although it is the fifth year the *Theta Alpha Phi Alumni Award* has been given, it is still a comparative newcomer to the lists of scholarships for outstanding work at Teachers College.

Other alumni groups might be interested in how such a worthwhile project is carried out.

In 1946 the Iowa Beta chapter Christmas newsletter carried an inquiry about what alumni of Theta Alpha Phi thought of the idea of a scholarship. The response was immediate. Not only good suggestions about setting up and administering the scholarship came in, but the letters brought enough money to assure the first year's award.

Up to that point the affairs of the Award had been handled by a temporary committee; Mrs. Winifred Hart, B.A. '20, Hazel Strayer, B.A. '14, Stanley Wood, B.A. '31, Caryl Middleton, B.A. '34, and Leland Zimmerman, B.A. '41. The Executive Committee of the Theta

Alpha Phi Alumni Scholarship Project was then elected and they hold their business meetings in March, at the same time selecting the annual recipient of the award.

Alumni of the dramatic arts fraternity have been generous each year to provide the award of three quarter's tuition. The first award was made in 1947 to Margaret Doty, B.A. '50; the next in 1948 to Darlene Blankenhorn, B.A. '49; in 1949 to Robert Hamilton, B.A. '50, and last spring Mary Boyd, now a senior, was presented the award.

To date about half of the Iowa Beta alumni have made one or more contributions. Some donations for larger sums have been contributed for use a few dollars each year, thus building the future of a successful scholarship program.

This Theta Alpha Phi award is not to be confused with the Bertha Martin Memorial Scholarship for "outstanding scholarship in dramatics" established in 1930 by the Bertha Martin Foundation, an independent organization.

New Curriculum Begins in June

In June 1951 the revised curriculum for Teachers College will go into effect. This move is the culmination of months of hard work by committee members and the staff at the college.

In the spring of 1949 a committee of nine was appointed from the faculty with Chairman Daryl Pendergraft being relieved from his teaching duties and the committee members from half their normal teaching loads. Meetings with departments followed. Surveys were made; excursions to other teachers colleges and forums of superintendents and other interested groups helped direct the committee toward its goal. By the time the final proposals were presented, nearly every faculty member had participated in their making.

In brief, here are the basic changes to be brought about: (1) an integrated program of general education to replace a limited program that is partly elective; (2) a requirement of one minor instead of two; (3) an increase in the total requirement from 186 to 196 quarter hours; (4) a more liberal policy with respect to the evaluation of transfer credits, and (5) an expansion of the professional sequence.

Writing in the September 1950 issue of *The Journal of Teacher Education*, Dr. Malcolm Price makes the following comment: "The committee found that with the help of materials now abundantly available it is not difficult to devise a good curriculum. But to be really effective, a new curriculum must have the enthusiastic support of the faculty. The new curriculum at Iowa State Teachers College is not revolutionary. It does represent a significant change in the right direction. With very few exceptions, it can be taught by the present staff, and the faculty has overwhelmingly endorsed it."

Anyone interested in obtaining more specific information about the curriculum revision may write to Dr. Daryl Pendergraft, Curriculum Coordinator, I.S.T.C.

EDUCATORS TRAIN HERE FOR A. A. C. T. E. SURVEY

A three-day training school at Teachers College attracted as "students", seventeen college presidents and deans from as far west as Washington and Oregon. The school, held during January, is part of the re-accrediting plan for the almost 250 member institutions of the American Association of Colleges for Teacher Education (AACTE).

Iowa Teachers was selected as one of the pilot institutions where these educators could assemble and inspect the facilities. This will eventually guide the trainees as they make accreditation inspections of AACTE Member institutions over the next three years.

The trainees will be responsible for making accreditation inspections at the institutions in the 11-state Northwest area. Here to act as special training team for the Northwest representatives were Dr. E. J. Ashbaugh, Miami U., Oxford, Ohio; Dr. E. S. Evenden, New York; Dr. Charles W. Hunt, Oneonta, N. Y.; and Dr. W. W. Wright from Indiana U., Bloomington.

Industrial Arts Publishes Quarterly News Magazine

With the publication of Number 2; Volume I, of the *Outlook*, the Industrial Arts quarterly publication has established itself as a going concern.

Written, composed and printed in the I. A. department at Teachers College, the twelve-page magazine is produced by printing classes and Industrial Arts club as a news magazine for their alumni and friends.

The fall issue, for instance, carried articles on club visits, conferences, mechanical tips, lists of summer and fall graduates and alumni news.

Any alumni who have not received copies of *Industrial Arts Outlook* and would like to be placed on the mailing list may write either to E. D. Crosby, Graphic Arts Adviser, or to Dr. Harold Palmer, Head, Industrial Arts Department, I. S. T. C.

LOS ANGELES AREA ALUMNI PLAN MARCH REUNION

Alumni in the Los Angeles area will be having a reunion dinner on March 31 according to present plans.

Mrs. Esther (Bley) Foy, B.A. '33, has made the arrangements for a dinner at the banquet hall of Immanuel Presbyterian Church, 666 S. Catalina Street (at Wilshire Blvd.) at 6:30 p.m. on that date. Reservations will be made by card or letter and the tickets are \$2.00 each, including the tax and tip.

All Teachers College alumni, former students and friends are welcome, Mrs. Foy says. But reservations must reach Mrs. Foy not later than March 15th. Many alumni in the Los Angeles area for whom the Alumni Office has a current address will receive post card reminders in time to make reservations by the mid-March deadline.

If you are interested in helping with the program or wish to send in your reservations early, Mrs. Foy's address is: 503½ No. Norton

Ave., Los Angeles 4, Calif. Her phone is Hudson 2-8249. She asks that reservations be accompanied by check or money order, since it is not safe to send money by mail.

Former Student Wounded In Korean Fighting

Word has been received here that Sgt. Merle Johns ('48, '49) from Grundy Center was wounded by shrapnel while fighting with the 1st Marine Division in Korea on December 1. He is now recuperating in a hospital in Yokosuka, Japan where he was flown from the battle area.

He left Waterloo on August 28 with a Marine Reserve group and trained on the west coast until October 1 when he sailed for Japan. His mother, Mrs. Marx Johns, Grundy Center, reports that he is recovering well from his wound.

President Guest at 3 Alumni Meetings

On the occasion of President J. W. Maucker's attending a State Board of Education meeting in Council Bluffs, a number of southwestern Iowa alumni got together for informal meetings with President Maucker as guest of honor. At each meeting Dr. Maucker outlined briefly his feelings about Teachers College and what his hopes were for its future.

G. E. Myers from the Alumni Office, accompanying Dr. Maucker on the trip, showed colored slides and a Television movie produced at the College.

COUNCIL BLUFFS

Miss Nellie Small, Kind. '23, took charge of organizing an alumni reunion for the evening of December 14 at the Railroad YMCA. She estimated 65 persons attended from the Omaha-Council Bluffs area.

RED OAK

Superintendent E. B. Lynch, B.A. '21, took charge of inviting the alumni in the Red Oak area; and invited the parents of present students as well. The meeting was held in the high school on December 15. Refreshments were served in the Homemaking rooms. Among the guests were Lulu B. Reed, Montgomery County Superintendent, and Elmer A. Bass, State Representative. Almost fifty percent of the alumni living in the immediate Red Oak area turned out for the meeting.

BOONE

This lively Teachers College Alumni Group took over a banquet room in the Lincoln Restaurant for the evening of December 16. Louise Linderblood, B. Di. '11, made arrangements for the meeting and about thirty attended. Mrs. William Goodykoontz, B. Di. '93 was the oldest class representative, while Mark McCarten, B.A. '50, furnished the narration for some pictures of the campus.

At other points President Maucker and Mr. Myers visited briefly in schools and with individual alumni. At Atlantic they visited Jack-

son school to see Principal Tilford Mathre, B.A. '41, and his staff, most of whom are alumni or former students of Teachers College.

Other stops included Audubon (in the home of Mr. and Mrs. James Boyd, B.A. '50 and Kp. '50 respectively), Carroll, Jefferson, Ogden and Exira.

Board Action Benefits Fee Exemption Students

The State Board of Education in its December meeting took action to assist the fee exemption student by raising the exemption by six dollars.

The new ruling, to be effective next September, means that an eligible student is granted a \$26.00 quarterly fee exemption. The present figure is \$20.00.

Up to 300 new students may be allowed the fee exemption each year, President J. W. Maucker has explained. Of these, 100 may be selected from recommendations of the county councils of the Iowa State Education Association.

Students recommended for fee exemptions by ISEA must, however, study under the two-year (elementary) curriculum.

Recommendations for the rest of the exemptions come from local school officials and may be applied to any curriculum.

President Maucker also pointed out that these exemptions apply to instructional fees only and do not cover materials or health and activity fees.

AUSTRALIAN GOVERNMENT FOOTS THE WHOLE BILL

The Australian government pays the college expenses of her teacher-training students. This information comes from Dr. A. J. Greenhalgh of Teachers College, Armidale, New South Wales, who visited at I.S.T.C. this winter as part of his five-month Carnegie study grant. The only stipulation, said Dr. Greenhalgh, is that a student must agree to teach one year longer than the time his education required.

Panther Sports Parade

By Wayne Duke, Sports Information

EIGHT TOURNAMENTS SCHEDULED THIS SEASON

Athletic facilities at Teachers College will be kept quite busy this winter and spring with seven major tournaments on tap in addition to regularly scheduled dual meet events.

For the second straight year, Iowa Teachers wrestlers will play host to a national tournament with the National Amateur Athletic Union's meet (NAAU) scheduled here April 5-7.

That means Coach Dave McCuskey's national champions will defend their NAAU title right in their own back yard. Last year, they played host to the National Collegiate Athletic Association meet (NCAA), won that one, and then went on to get their second straight NAAU crown at Hempstead, N. Y.

The NAAU, expected to be on a bigger scale than last year's NCAA, highlights the tournament and meet schedule this spring on the collegiate level, but Iowa high schools will take part in two major tournaments on the T. C. campus.

High school district basketball and state wrestling tournaments will be held in March in the Teachers College Fieldhouse. Return of the state wrestling meet marks the first time that event has been held here since 1936.

Then there's the 28th annual Teachers College Relays scheduled for April 21 which is expected to draw over 1,000 collegiate and prep athletes.

North Central conference spring meets in track, golf and tennis are scheduled here, the first time the Teachers have been host school since 1937. In fact, that's the only time Teachers College has staged the NCI spring tournaments.

Conservative estimates show that over 1,650 athletes will take part in the spring and winter tournament schedule at Iowa Teachers.

Add to that the number who participated in the AAU invitational wrestling meet in early

December and the final total reads . . . eight tournaments; nearly 2,000 athletes.

Enlistments, Draft, Reserves Call Many Panther Athletes

The Korean war took on an added significance in the athletic department beginning with the winter quarter January 2.

Sixty-one men—over a third of them athletes—cancelled registrations as enlistment fever hit the campus. About 375 more men students had already received induction postponements or notices to report for physicals.

The crowning point came when the athletic department recorded its first casualty. Merle Johns of Grundy Center, one of the first athletes to be recalled, was wounded while in action with the Marines in Korea.

Johns, a junior, last year won both the North Central conference singles and doubles tennis championships.

Coach Dave McCuskey lost only one letterman in the between-quarter exodus along with five other wrestlers, but three of the bunch were counted on for No. 1 jobs.

Frank Altman, the letterman, last year beat out national champ John Harrison at 121 and won 10 duals without a loss. He was counted on for a possible No. 1 chance at 123. Don Miller and Don Bailey, others lost to the services, were tabbed regulars at 136 and 147.

Coach Buck Starbeck lost three lettermen from last fall's team — End Tony Simkus and Backs Dick Braunschweig and Bill Paulsen. Two squad members who failed to letter and a handful of freshmen also dropped at the end of the quarter.

Track and baseball didn't lose any lettermen to service but each gave up four promising re-

serves and newcomers who appeared cinches for No. 1 positions in 1951.

Basketball was the least hit by service calls. It had only one returning veteran, anyway. Only two freshmen and one varsity candidate dropped from the squad pending enlistment.

'Surprise Five' Leading In Conference Basketball

Coach Hon Nordly figured he couldn't have a better bunch of boys if he had to lose his reign of North Central conference basketball championships.

That was in late December when he faced prospects of being the doormat for conference teams after winning the title three years running. He had just placed in the second division of the first pre-season league tourney and couldn't foresee anything better for regular conference play.

Something perked up the newcomers and they won five straight league contests in a row, including a pair over loop-favorite Morninside.

Now, they're holding the key to the 1951 race, and stand a good chance to repeat despite a rugged schedule that calls for four of five remaining games on the road.

The Teachers have played starters almost full-time, the lack of experienced personnel forcing Nordly to rely mostly on returning squad members.

Nordly's pick of Soph Howard Pigg as the brightest newcomer was a good one. The Colfax forward is the team's third high scorer behind Dick Garth at No. 1, only letterman on the squad, and Bill Peterson at the runner-up spot.

Peterson, a reserve last year who didn't make the traveling squad at any time during the season, is Nordly's brightest returnee outside of Garth.

Biggest problem is still at center where Nordly misses rebounding power and scoring punch of his 1949-50 big boys.

TC Tightens Series With ISC Wrestlers

The record book is getting to the even-up stage in Teachers College's 26-year-old wrestling series with Iowa State, believed to be one of Iowa's oldest sports rivalries.

Teachers closed the gap in one section of the record book and evened up another as it won its tenth straight from the Cyclones, 22-6.

The all-square mark is Coach Dave McCuskey's personal record against the Cyclones. His teams have now split even in 20 duals with Iowa State.

Overall record with the State wrestlers is now 10 for Teachers, 12 for Iowa State, but if patterns are to be followed, T. C. needs but two seasons to square the count.

Iowa State was the kingpin in Iowa wrestling when Teachers first embarked upon a full inter-collegiate schedule in 1924. It hadn't been beaten in four seasons and knocked off the Panthers' first wrestling team, 21-0.

It took until 1940 for T. C. to catch up with the Cyclones. Panther teams lost all 12 along the way, but haven't been beaten since.

From 1940 on, Dave McCuskey's teams have won ten straight from the Cyclones.

This year's meet offered a bigger aim than evening up the series mark for McCuskey. The Panthers were working on their 32nd straight dual triumph without a loss, a streak dating back to January 16, 1948 when they lost their only dual in 45 starts.

Former Student Killed in Korea

Marine 1st Lt. Karle F. Seydel, student at Teachers College in 1941, was reported killed in the Chanjin area of Korea on December 7. He played guard on the University of Washington football varsity in 1948-49 according to a dispatch in the *Seattle Post-Intelligencer*.

The Alumnus is interested in receiving word about all alumni and former students. Please help us keep you informed.

Wrestlers on Tour To Turkey

Three Teachers College wrestlers drop in to console Keith Young (third from left) before making a wrestling exhibition tour of Turkey over the Christmas holidays. Young was scheduled to make the trip but stayed home because of a bad case of tonsillitis.

Making the jaunt were, left to right: Bill Nelson, Bill Smith and John Harrison.

Teachers College wrestlers hopped off on another trans-oceanic trek over the Christmas holidays, their second in less than six months.

First, Frank Altman and Bill Smith toured Japan late summer and early fall with a wrestling exhibition tour.

Then over the Christmas holidays, John Harrison, Bill Nelson and Bill Smith got in on a two-week wrestling exhibition tour of Turkey and Europe.

Keith Young was also eligible to go, but at the last minute came down with a severe case of tonsillitis and passed up the trip.

National Amateur Athletic Union (NAAU)

individual champions were those picked to make the trip but because coaching is considered professionalism Teachers NAAU heavyweight king, Fred Stoeker, was ineligible. He's coaching at Owatonna, Minn.

Teachers wrestlers didn't fare too well against the Turks because of two counts — (1) the short time in which they had to prepare; (2) Olympic rules were used, forcing changes in styles of wrestling.

Johnny Harrison was forced to cut short his stay in New York following the flight from Amsterdam, Holland, in order that he could get back for the opening dual meet with Illinois.

Seventy Years Ago

— BY I. H. HART

(The Student Offering,

Winter Term 1880-81)

The new pedagogy — "We learn to do by doing something else."

A certain professor is quoted as saying, "Nature is full of curves."

The appearance of horse radish on the tables in the Boarding Department was heralded as evidence that "Spring is here."

Principal Gilchrist was prevented by a snow blockade for several days from returning to Cedar Falls after a lecture engagement at Parkersburg.

"Rhetorical class work" once each week, including "declamations, recitations, essays, and orations," was reported to be a marked feature of the Normal School.

A student essayist stated that James Fenimore Cooper, "not only originated the American Romance," but placed it "on a level with foreign works of the kind."

(Adv.) At our store the Normal Ladies will find the Finest Line of Stationery, Blank, Scratch, and Miscellaneous.

An editorial writer expressed satisfaction over the fact that "Our nation is spending its millions preparing for peace", and that "the national debt is being rapidly reduced."

One of the Normal hacks tipped over just at the gates the other morning. The literary occupants were nearly crushed by a shower of their own text books. Otherwise all were unhurt.

In an article on the Cedar Falls Parlor Reading Circle, in the organization of which the faculty of the Normal School had been instrumental, it was stated, that, "It was a surprise even to the members themselves to see the promptness and zeal with which all exercises assigned were performed even by retiring ladies."

John Drinkwater, English poet and dramatist, gave a lecture-recital in the college auditorium.

Pete Jorgenson, one of the best pitchers ever turned out by TC, was signed to pitch for the Chicago White Sox.

The basketball games of the season were all played with teams in the newly reorganized conference and resulted in seven wins and five losses.

"A robin, a real, live, red-breasted robin, was seen on the campus on January 27. And he was headed north. Spring is here!"

Bess Streeter Aldrich, a former Cedar Falls resident and TC graduate, had an article in the *American Magazine* entitled "How I Mixed Stories and Doughnuts."

Professor John W. Charles, in a survey of the students in his classes in psychology, found that these students ranked Lincoln first among American public characters; Washington, second, and Mary Pickford, third.

Anna D. Cordts, junior student representing the Iowa State Teachers College, won first place by unanimous decision of the judges in the state oratorical contest at Mount Pleasant. Her oration was on "America and the New Era."

The TC High basketball team won the north-east Iowa tournament at Cedar Falls by defeating successively the high school teams from Hampton, Sheldon, Manly, East Waterloo, and Jesup, and thereby won the right to appear in the state tournament to be held at Iowa City.

The Hawkeye Conference, of which the Teachers College had been a member before 1918, was reorganized at a meeting called by Coach Doseff here. The colleges represented in the meeting were: Buena Vista, Ellsworth, Upper Iowa, Columbia (now Loras), Lenox,

and TC. Other former members of the previous conference were expected to join. Eligibility rules were adopted and Coach Doseff was elected president of the conference for the coming year.

Professor W. B. Fagan came to the defense of the (then) present generation against an editorial implication that it was morally worse than the preceding generation—"That pitifully ridiculous philosophy has been preached (said Fagan) for so many hundreds of years, and has been shown to be pitifully ridiculous during all these years . . . It is either a lie, or history is a lie, or hell will be a most restfully moral place after 6000 years of an ever degenerating world."

Placement Director

Explains Purpose and Results of Placement Service

The Iowa State Teachers College Placement Bureau has for its primary function placing and assisting in placing its graduates and former students of the college into teaching positions. Teacher placement is viewed by administrative officers and by the instructional faculty of the college as an integral part of the program of teacher education.

The Placement Bureau represents the college officially in all types of teacher placement services. It represents teacher placement for every department of the college, the personal interest of every individual registered with the Placement Bureau, and the interest of every employing school official who writes, telephones, or visits the Bureau in behalf of teacher selection.

Every former student who has had THREE QUARTERS of college work in residence at the Iowa State Teachers College who intends to teach or continue in teaching should register with the Placement Bureau.

FREE REGISTRATIONS

Registration with the Bureau is a prerequisite toward graduation from the college. All registrations and re-registrations are free to the registrant. All placement services which are rendered directly or indirectly to registrants are free services. Current year graduates are requested to register with the Placement Bureau prior to December 1st. Alumni and former students who are now teaching and who desire to change to new teaching positions for the

1951-1952 school year are requested to bring their official confidential credentials up to date by April 1st. However, re-registrations are accepted by the Placement Office at any time.

It is important that credentials be in readiness and available for employing officials during the most active period of teacher selection and at the time when vacancies and opportunities for obtaining teaching positions are most prevalent.

CALLS FOR TEACHERS

During the past year the College Placement Bureau received 6,195 calls for teachers. These calls came from the 99 Iowa counties, 38 other states, and from Alaska, Guam, Hawaii, Puerto Rico, Costa Rica, Germany, Japan, West Indies, and Venezuela. Placements were made in 97 Iowa counties, in 23 states other than Iowa, and in Hawaii, Puerto Rico, Germany, Japan, and Venezuela. A total of 1,251 candidates were placed into new teaching positions. Of this number 428 are secondary teachers, 796 accepted positions in the elementary grades, and 27 are school administrators.

A number of our four year degree graduates were unable to compete for high school teaching positions with candidates who had five years of college training and who held the M.A. degree. If the graduates of Teachers College are to be given an opportunity to obtain teaching positions in the better high schools of Iowa and in the better high schools of other states it becomes imperative that Iowa State Teachers College offer the Master's Degree.

INEXPERIENCED SALARIES

The median salary for inexperienced graduates who were placed into *high school* teaching positions is \$2,850 with highs of \$3,400; the median salary paid to inexperienced *four year elementary* graduates is \$2,550 with highs of \$2,750; the median salary paid to inexperienced *four year kindergarten-primary* graduates is \$2,525 with highs of \$2,700; the median salary for both two-year and elementary and two-year kindergarten-primary teachers without teaching experience is \$2,250 with highs of \$2,400.

EXPERIENCED SALARIES

The median salary paid to experienced *high school teachers* is \$3,000 with highs at \$3,600; the median salary paid to experienced *four year elementary and four year kindergarten-primary* teachers is \$2,650 with highs at \$3,100; the median salary paid to *elementary and junior high principals* is \$3,000 with highs at \$3,600; the median salary paid to *senior high school principals* is \$3,600 with highs at \$4,000; and the median salary paid to *superintendents and supervisors* is \$3,800 with highs at \$5,000.

* * *

The Placement Bureau recommends whenever possible, the better qualified available candidates to employing school officials. The number of nominations which a registrant receives is determined largely by the candidate's qualifications as compared with the qualifications of other available candidates, by the supply and demand of candidates, by the number of vacancies reported for which a candidate qualifies, and by the type of personality desired by the employing school officials.

We recommend that alumni and former students of the Iowa State Teachers College contact the Placement Bureau frequently until they obtain the kind of teaching position in which they are primarily interested. The Bureau is anxious to render services to all registrants whenever it is given an opportunity to do so.

Efficient placement services are largely determined by a high type of cooperation from employing school officials, from current year graduates, from former students of the college, and from our teaching alumni. We deeply appreciate the fine cooperation which the teaching alumni have given the Placement Bureau in the past in their interest in obtaining new teaching positions.

Yours very cordially,

E. W. Goetch, Director

College Placement Bureau
